

Accepted file formats (Mac)

- * Illustrator CS3 or earlier
- * Indesign CS3 or earlier
- * Photoshop CS3 or earlier
- * Quark Xpress 6.5 or earlier
- * Please do not send .pdf files as your finished artwork.

Preferred File Formats ...

- * As an Illustrator .eps or .ai file (vector) with all fonts outlined or supplied with its font suitcase and all images linked not embedded.
- * As an Indesign document with all picture files and font files included.
- * Although we do accept Quark Xpress Files it is preferred that if possible artwork be supplied in either Illustrator or Indesign as we only have one copy of the program and will not continue to support future versions of the software.
- * We do not accept any artwork supplied as either Word or Powerpoint files

Information for Designers ...

- * Please ensure that all fonts are sent with the artwork
- * All colours for printing MUST be either CMYK process or SPOT colours, RGB files do not print or separate correctly. Please convert any unnecessary spot colours to CMYK before sending artwork.
- * If possible ensure that all artwork bleeds 10mm outside of the Knifeline
- * Please send a print of the artwork along with the disk
- * All scaling of artwork must be clearly marked
- * Include all linked images on the disk as separate files, do not embed the images.
- * Create all pictures as High Resolution 300ppi Eps, Dcs2 or Tiff files. Bitmaps should be created at 1200ppi and without any compression
- * If possible always supply the Layered Photoshop files (.psd) with the artwork so if necessary, we are able to refer to them for any alterations that may be required.
- * Where possible please create Effects in Photoshop (Shadows, Transparency, etc),
- * Artwork can be accepted on either CD or DVD or uploaded onto our FTP site.
